## PART III: ENTITY RANKING LIST

**III.1.** The Entity Ranking List is made by the Activities and Events Committee by giving points for each entity's activity during the previous EGEA year and it is valid for all the congresses organised until the next Annual Congress, including the next Annual Congress.

**III.2.** When making the Entity Ranking List, the activities of all the entities, either candidates or full members, will be taken into consideration.

**III.3.** An activity needs to fulfil a certain set of criteria to be considered for the Entity Ranking List.

**III.3.1.** The activity and all its details are required to be published in advance through the activities calendar on the EGEA website and accessible for all individuals of EGEA. It is the responsibility of the organisers to make sure that the activity and its details are known.

**III.3.2.** The activity and all its details are required to be reported by the organisers to the Database of Events through the activity registration form on the EGEA website. ActCom can set a deadline for organisers to report their activity.

**III.3.3.** The summary on the activity page needs to be written in English, even if it is not the main language of the activity.

**III.3.4.** The activity needs to be aimed for and attended by participants not only from the organising entity/ies.

**III.3.5.** If the participants list cannot be verified from the activity registration form on the EGEA website, ActCom has the right to request it from the organisers by the given deadline.

**III.4.** Points for the Entity Ranking List will be calculated according to the formula: (number of days of the organised activity) x (number of participants).

**III.4.1.** Points will be awarded only for participants belonging to EGEA or its partner organisations.

**III.4.2.** A maximum of 10 participants from the organising entity/ies will be considered. This rule does not apply for exchanges, where only participants from visiting entity/ies will be considered.

**III.4.4.** If an activity is organised by more than one entity, each entity will receive 10% less points for every involved organising entity. Exchanges are excluded from this rule.

**III. 4.5.** Activities which are green approved in accordance with the criteria and procedure described in the Green Book, receive an additional 20% of points (= (number of days of the organised activity) x (number of participants) x 1.2).

**III.5.** In the new Entity Ranking List, entities will get 50% of the points they received in the previous year.

**III.6.** If entities receive the same amount of points, their order will be established by a random draw.
