Foreword

Dear Reader,

I do want to say „Dear West“ one last time, even if this report is for everyone.

So: Dear West (and everyone else)!

I can't remember how many times I've said that this year, but belief in me, I said it many times! We all know this was a special year and I think I can speak for everyone when I say that we all hope the next year will be 'normal' again.

This report is to refresh your memories about events from last year and you can see what is going on in all entities.

It was unexpected, but we had the opportunity to start the year with a live meeting! We had a bunch of ideas for the year, like the new hydrological year and Secret Santa (I hope all of you got your package!). Some ideas were implemented during the year, some are waiting to be implemented by someone else.

I am very happy with all the entities which filled in our questionnaire so

this report could develop. I will not hold you back so you can start swiping in our dating report and find out which entity fits the best. This will be the last official document you will get from your Regional Team 2020/2021.

I'm sure, you asked yourself what will happen to the RT members now? You will see all of us active in EGEA definitely for the next year as Team Coordinators, Congress organisers or my successor.

I still want to say thank you to my Regional Team! It was an amazing time with you! This year will stay in my memories as a year full of work, learning and a lot of fun!

Josefa Loreth

About the Western Region

Where to begin about the Western region? Well, we think all our entities and their members are **wonderful**, and we hope after reading this you will agree! Here you will find entities from Austria, Belgium, Germany, the Netherlands, Switzerland and the United Kingdom. Unfortunately, our two French entities have decided to leave us for now... but they will **always** be in our hearts.

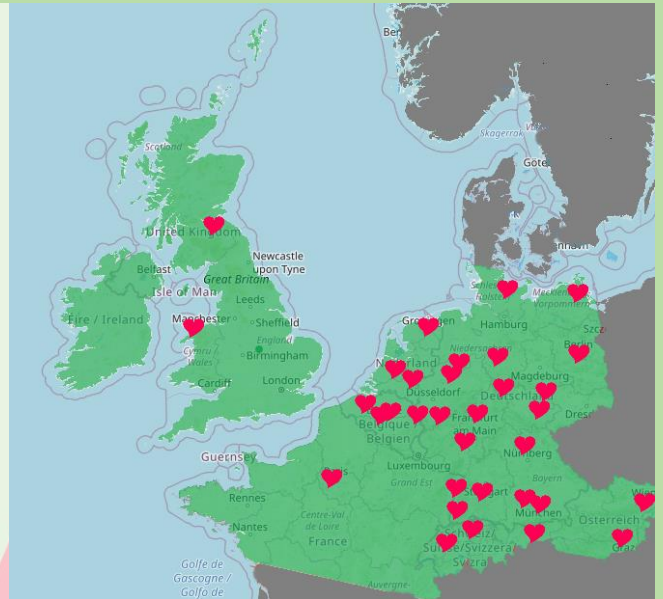

The Western entities have many things in common, such as our appreciation for good quality **beer** (although one of our main disagreements is which country the best beer is found!), and a majority of our entities agreed about the best place to meet people...

Where is the perfect place to meet people?

■ Club/bar ■ EGEA event

Although Covid has made meeting in person difficult, many of our entities have still kept the **EGEA magic** alive through online events. As restrictions began to ease across many of our countries, some entities were even able to host small local events, sharing the **EGEA love** close to home <3

But what about the Regional Team? This matchmaking dream team was $\frac{3}{4}$ German and $\frac{1}{4}$ British, and fully dedicated to supporting our entities through it all. We organised meetings, online CP training, smaller discussion groups, and we showed our **love** in many ways – whether by listening to our entity’s problems and sharing advice, or more tough love such as our endless emailing and pestering about upcoming deadlines (which we only did as we wanted the best for you <3)

It’s been a rollercoaster of a year, but throughout it all our love for this region and our entities remains strong and we hope that by getting to know our entities more, **your love for them will grow too.**

CP - TRAINING

Our CP-Training of the EGEA Year 20/21 was organised in cooperation with the EuroMed region. We had several topics prepared and mixed the presenters so that the Regional Assistants of the Western region got to know the Regional Assistants of EuroMed. We had a blast working and preparing the workshops together and were able to help a lot of CPs gain knowledge not only on soft skills, but also other important stuff. Micol and Josefa started with a workshop about “CP Responsibilities” and “Entity Management” and gave insights on what the different tasks of a CP really mean as well as how to manage your entity the right way. Polona, Maisie and Runa took on the task of “Event Planning” and “Time Management”, where the participants were given some tips and tricks on how to plan events each step at a time while managing time and especially deadlines. The “Leadership” workshop was presented by Maisie and Polona. They taught the participants what it means to be a leader and what character traits a good leader needs. Chaanah and Henrik held a workshop on “Presentation and Public Speaking” to show the participants what to do and not to do when speaking in front of a crowd. Another workshop was hosted by Chaanah and Josefa on the topic of “Fundraising and Project Planning”, where the participants got to know typical systems on this. The last workshop of the CP-Training was on “Teambuilding, Motivation and Newbies”, where Micol, Henrik and Runa tried to teach the participants how to strengthen teams, how to motivate them and how to acquire new members to their entities. In the end we had an awesome unofficial EGEA – Party where we got to receive some feedback and chat about this and that! The CP-Training was definitely a success and we hope we were able to help answer all of the questions current or future CPs may have.

FUTURE RT

- ♥ **Hello EGEA. My name is Henrik and I'm from EGEA Marburg.** I joined EGEA back in 2016 and had many awesome experiences ever since. From hiking and hitchhiking in Romania to eating frog legs in France the past 5 years have been a crazy ride with many awesome people along the way.
- ♥ **Hi there! I'm Caro :)** some of you might already know me as a Finance Team Coordinator. I've been an active CP keeping Innsbruck alive for most of my Bachelor. For my masters I moved to Darmstadt and am very excited to be a new member of my closest entity Mainz.
- ♥ **Hey people, I'm Malte from EGEA Osnabrück.** After founding the entity back in 2018 I had great fun meeting the loveliest EGEAns from all over Europe at exchanges and congresses and I can't wait to attend the next event!
- ♥ **Su'mae! My name is Jared and I'm from EGEA Bangor, North Wales.** After co-founding Wales' first entity, my time with egea has only been happy memories since. From the Kiel newbie weekend, to culturally enriching exchanges with Zurich, Tübingen and Nijmegen, and the 2019 Czechia AC I've always been eager to do more with and for EGEA.
