

# Call for Working Groups Members 2025/2026

*Krakow, 12.01.2025*

The Board of EGEA is opening the call for EGEAns to join **Working Groups 2025/2026**.

**EGEA Working Groups (WG)** allow our Association's structure to grow and anticipate future needs. They are formed, for the working year, to act as flexible, individual-led initiatives designed to address specific tasks or pilot new ideas.

Each Working Group (WG) is led by one or two individuals.

## This Year Working Groups

To continue the work of WOSM25, we will have 3 WGs.

### **GUIDELINES IN CASE OF WAR, CONFLICT AND CRISIS SITUATIONS**

Until GA25, EGEA had an official document on the Association should conduct itself in case of instabilities in Europe. This document has been voted out because it was outdated. However, a document is still needed to formally address situations like war, conflict and crisis that could impact the members of our Association. The working group's goals are to develop these guidelines and a non-liability statement.

If you have any further questions, feel free to contact Klemen Baronik at [president@egea.eu](mailto:president@egea.eu) or Nataliia Filimonchuk at [nataliiafilimonchuk@gmail.com](mailto:nataliiafilimonchuk@gmail.com).

### **EGEA MERCH**

After the successful "37 years of EGEA in the Netherlands" pilot merch project and a productive session at WOSM25, we would like to continue the development of EGEA merch. This working group will start working directly with the conclusions from the WOSM session. The goal of the working group will be to:

1. Design the new line-up of merch
2. Develop the logistics planning for the merch (different types of shipping and distribution based on the item)
3. Discuss the prices for the merch
4. New points can pop up as we are working on the previous points

You have ideas on how to improve it and want to contribute to that WG, feel free to reach out to Olivia Deman at [treasurer@egea.eu](mailto:treasurer@egea.eu).

## APPENDIX A

Appendix A is the foundation for the functioning of the General Assembly. It is one of the backbones for democracy and for implementing changes in our association. Following the rejected Appendix A proposal and two OSM sessions regarding either Appendix A or democracy within EGEA in general, we propose this working group to go over the whole current Appendix A and see where some improvements can be made.

The goals of the working group are to 1) gather feedback on the GA (what works well, what could be improved upon) from all EGEAns 2) to make sure any current 'unwritten' practices are incorporated into the official document to avoid any discussions regarding how the GA ought to work and 3) see if there are any minor corrections needed.

You are full of questions about the EGEA procedures during General Assemblies, feel free to contact Olivia Deman at [treasurer@egea.eu](mailto:treasurer@egea.eu) or Seline Daumal at [vicepresident@egea.eu](mailto:vicepresident@egea.eu).

## Join a WG

If you are interested in one WG or more, you can fill in [this form](#). And if you have any questions, feel free to contact the Board of EGEA at [egea@egea.eu](mailto:egea@egea.eu).
